### **MTG AG and Securosys SA forge a strategic alliance for innovative digital security**

---

**Darmstadt (Germany)/Zurich (Switzerland), 21 March 2024 – MTG AG, a leading company in the field of encryption technologies, and Securosys SA, a renowned provider of cybersecurity solutions, today announced the signing of a strategic partnership. This collaboration marks a significant step towards fortifying the security landscape and promoting visionary solutions.**

#### **Innovation and expertise for a secure, interconnected world**

Combining MTG AG's extensive expertise in developing and implementing security infrastructures with Securosys SA's pioneering Hardware Security Module (HSM) technology, the partnership promises innovative solutions tailored to the complexities and challenges of today's interconnected world.

MTG Enterprise Resource Security solutions (ERS®) streamline and centralize cryptographic key and identity management across the entire lifecycle. Their innovative product range includes certificate lifecycle management, public key infrastructures and key management systems, offering a range of implementation options, including cloud, managed, and on-premises solutions, to meet the specific requirements of customers.

The collaboration with Securosys SA opens new opportunities for MTG AG to deliver comprehensive security strategies to clients. Securosys' leadership in developing state-of-the-art hardware security modules (HSM) that can be deployed both on-premises and in the cloud, complements MTG's offerings seamlessly. Securosys recently unveiled its latest HSM device, boasting impressive performance and hybrid signature capabilities while maintaining the same throughput. The combination of Securosys' HSM technology and MTG's comprehensive encryption and identity management provides companies with a reliable solution for securing their sensitive data.

"The partnership with Securosys SA offers our customers state-of-the-art technologies that meet their evolving IT security requirements," says Jürgen Ruf, CEO of MTG AG.

For Securosys, the collaboration with MTG signifies an opportunity to broaden the accessibility of their HSM technology to a broader market. "We are thrilled to expand our partner network with such a capable partner as MTG," comments Robert Rogenmoser, CEO of Securosys SA.

The strategic partnership between MTG AG and Securosys SA signals a commitment to setting new benchmarks in cybersecurity and delivering sustainable value for their customers.

**About MTG AG**

MTG AG is a leading provider of sophisticated encryption technologies "Made in Germany". We simplify and centralize the management of cryptographic keys and identities in enterprises and the public sector. With MTG ERS, we ensure the industry-specific implementation and simple integration of a complete Key Management Lifecycle in selected company processes. The MTG ERS product offering includes Certificate Lifecycle Management (CLM), Public Key Infrastructures (PKI), Key Management Systems (KMS) and the integration of Hardware Security Modules (HSM). Cloud, managed and on-premise solutions are offered.

**About Securosys SA**

Securosys SA, based in Zurich, is a global leader in cybersecurity, encryption and digital identity protection, prioritizing data sovereignty. Their Swiss-built Hardware Security Modules (HSM) secure financial markets, serving over half of the Tier 1 banks worldwide. Certified to the highest standards, their on-premises and cloud HSM solutions offer secure key generation, encryption, and digital signing for finance, healthcare, government and other industries.
